

You choose where you want to be treated

With Healthguard you are not limited to a specific network of hospitals. We have included a selection of hospitals in this leaflet to help get you started, but you can choose any UK private hospital as an alternative.

Simply find your region from the map on the front, and then pick a hospital of your choice.

Customers are not limited to their local area and can choose from any private hospital anywhere in the country.

Area 1 East Midlands
